

- Sweet alert after mag over the counter after ng filling up ng form ni student.
- Remove Edit Profile&Profile sa student, registrar, at principal
- Remove forgot password sa mga log in modal.
- Gawing functional lahat ng change password from other buttons Yung ibang nav kasi wala, sa dashboard lng meron. So palagyan nlng din.
- Isa pa pala, di ko makita yung **EVENT NAV** na nakakapag create ng event sa **ADMIN SIDE**.

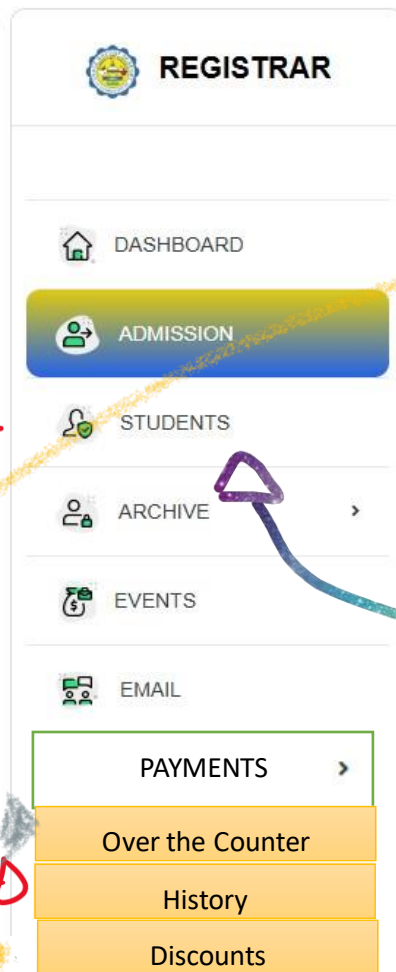

Ito pong **icons**, pakitanggal na din.

## REGISTER SIDE

*This is from the Admission Nav sa registrar side*

- Payment Mode: Ilagay **OVER THE COUNTER**
- Admission from Registrar: May dropdown if full payment, installment, o admission. Then maiinput sa textbox magkano. After nito saka plng mapapasok sa Student table.

Dito nmn, naisip ko kasi na mag-separate lng ng table for applying discounts so ayon..

Pag naging input ng certain percent, mababawas yon sa babayaran ng student and mag aappear din yon sa student view (Kita din kung ilang percent yung naapply na discount sa history siguro or kahit san nling don ilagay kung ilang % Also, yung text box jan na din nakalagay (yung iinputan ng amount))

Kung ano laman nito, pakilagay po dito sa **HISTORY NAV**. Lilipat lng yung laman since mukha kasi yang history.

Itong **PAYMENTS NAV** pakilipat dito sa **STUDENTS NAV**

Dito nmn yung table na nagcocontain ng students lang din naiinput dito kapag over the counter si student magppay. Then kakaltas na sa balance ni student din na makikita sa account nila just like kung pano lng sa online payment. Kinaibahan lng, si registrar mag iinput, hindi si Student (Si student kasi diba nag iinput kapag online. So yon..)

Ibig sabihin, sa Payment History ni student makikita na yung ganito... pero nakalagay lng **"OVER THE COUNTER"**

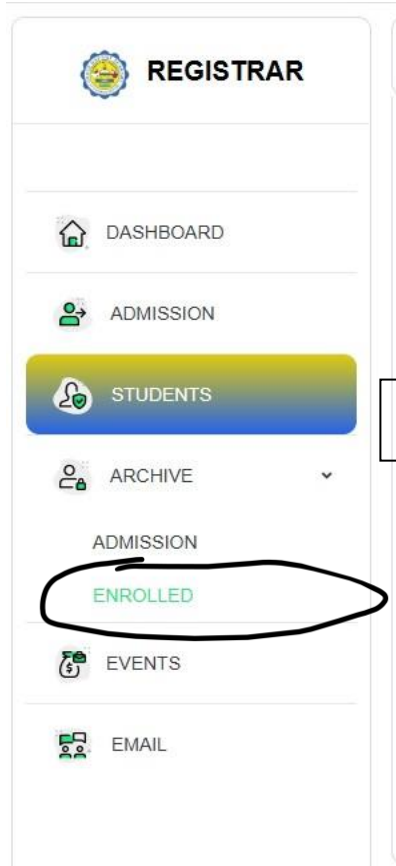

Then yung amount na ininput ni registrar at date

- Mag add ng payment button na nakakainput ng payment ni student pag napili nyang over the counter and also discount button sa registrar: Pag naging input ng certain percent, mababawas yon sa babayaran ng student and mag aappear din yon sa student view (Kita din yung ilang percent yung naapply na discount sa history)

yung naapply haha)

### Payment History

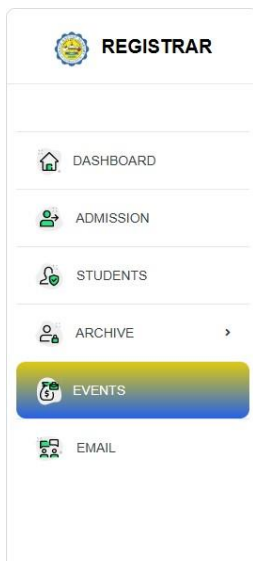

Payment Mode	Amount	Date
GCASH	2,000.00	11/22/2024
BANK	2,000.00	11/22/2024

Pakipalitan ito ng "Students"

**Pakidelete** nling tong **4 buttons** if di nmn sya nagfunction hehe.

Retain the **blue buttons**.

OP Notification

Naka zero na yung balance pero may nakalagay parin na monthly installment details. Dapat wala na

Then instead "Pay advanced", Pay Now nng

So ayon, sa part kasi na to nagfull payment na si student, dapat mawawala na yung laman sa **Monthly Installment and Buttons**

Ito yung remaining payment na binuo na yung bayad, kaya nagzero balance na

- Also pag nagpay si student dapat retain lng sa student page, (ang nangyayari kasi napunta sa index.php after)
